Finow

25X1

- Between 20 June and 4 July 1955, individual BA-64 armored scout cars and T-34 tanks have been repeatedly observed in the yard of the tank repair shop on Geschwister Scholl Strasse in Finow. The installation was occupied by 6 to 8 officers and 80 to 90 soldiers who wore red-bordered black epaulets.

Hermansmuehle

- On 23 June, 30 new field kitchens with rubber tires were seen near the unloading ramp at the Hermansmuehle supply depot near Finowfurt. On 7 July, truck [] entered the installation.

25X1

Biesenthal

25X1

- On 5 July, 40 to 60 AT guns were seen at the ordnance depot near the Biesenthal railroad station. On 26 July, the AT guns were no longer observed.
- On 7 August, the yard of the ordnance depot near the Biesenthal railroad station was completely empty. Only a few soldiers were seen.
- In early August, only three light AT guns were seen at the ordnance depot near the Biesenthal railroad station. A new garage of 15 x 40 m. was under construction. The installation was occupied by about 75 soldiers.
- The following is a list of rail shipments which arrived at, or were dispatched from, the Biesenthal railroad station between 18 June and 31 July:

25X1

Incoming Shipments:

Date	Shipment	From
19 June	5 7 with 81mm mortar	Jueterbog

19 June 5 7 with 81mm mortar Jueterbog

25X1

7. At 0936 on 20 July, a train of 16 six-axle F carrying 16 tanks passed through the Biesenthal railroad station and proceeded toward Eberswalde. The tanks were very wide, had large low turrets, five bogie wheels, and guns with a long tube. Each tank was escorted by five men. Since such large tanks have not been observed., they are believed to be a new type.⁵

1. Comment. The report confirms the tank repair shop of the Fourth Gds Mecz Army. 25X1
2. Comment. The report confirms the ration supply and clothing depot of the Fourth Gds Mecz Army. 25X1
3. Comment. The report confirms the ordnance depot of the Fourth Gds Mecz Army. The observations indicate that a shipment of obsolete weapons was probably dispatched to Fuerstenwalde in late July 1955. 25X1
4. Comment. The construction of the garage belongs to the program of enlargement of the Soviet central supply depots. 25X1
5. Comment. The shipment was possibly identical with the tank shipment and was observed at the border station on 20 July 1955. 25X1
